To whom it may concern

551375

I oppose the Yucca Mtn. Site
for a repository for nuclear waste.
My nephew goes to an elementary
school 500 ft. from the railroad
tracks. I do not approve of
transporting nuclear waste by rail
to Yucca through St. Louis. We experienced
a derailment a few months ago
hauling coal. I don't want to think
about what would happen with
nuclear waste!
